Discovery at Kirkmere

Creative Communications:
Students have the chance to explore their public speaking and creative writing skills.

Investigative Science:
In investigative science students explore the world and solar system we live in. They will learn about gravity, water and waves, astronomy, moon phases, and more.

Art:
In art students create original artwork and learn the skills and techniques they need to create art on their own, outside of class.

Music:
Students have the opportunity to not only take choir class, they also have the option of taking band or orchestra as well.

Engineering:
The Engineering Program at Discovery introduces students to the field of engineering. Students stretch their abilities to problem-solve and brainstorm while building team values! Our Discovery Engineering students have the opportunity to use brand new lab equipment and experiment with computer programing and three-dimensional design!

Dance:
Our students at Discovery have the unique opportunity to take part in dance class! Some of the awesome things the children get to learn in dance class include French ballet terms, modern dance, hip-hop dance, and how to choreograph their own moves!

Spanish:
Our course in Spanish will teach the students basic vocabulary, grammar, and history.
